Road Transport	Yes

#### Main Dimensions

Length Overall	11.90 meters
Width/Beam	6.10 meters
Depth	1.050 meters
Draft	0.30 meters

#### Features/Accessories

- Clear flat deck
- Road transportable via 1 x standard semi
- Carrying capacity 20t
- Moon pool and Rod Rack
- 4x Spuds and 4x hydraulic winch anchoring

#### Operation:

ECMC's Modular Construction Barge Eddie John is a road transportable piling barge or geotechnical investigation barge. With a quick and efficient locking system this modular barge can be assembled on site with minimal fuss and machinery. A 2m x 1m x 0.5m flush to the deck muck tank has been built to allow storage of cuttings with no obstructions to ensure a clear deck.

Eddie John is available for a number of services such as piling, geotechnical investigation, material and cargo transportation, dredging, EWP and bridge investigation works, pump stations and material storage, events and platform hire.
